

Private Auckland Volcanoes Luxury Tour

One of the things that make Tamaki Makaurau (Auckland) so unique is that it is built on top of a volcanic hot spot, meaning it's an extremely interesting and exciting place to visit for many reasons. Explore Auckland's geology including the opportunity to walk on the edge of several volcanic cones, which also offer amazing views of New Zealand's largest city below.

Tour Code: PVTAVT

From Volcanic Cones to Ice Cream Cones, Auckland is one of the world's most diverse and captivating cities. Auckland is the largest Polynesian city in the world and is a fascinating place to both visit and live in, regularly being voted one of the best places in the world to live in terms of lifestyle. Auckland is built on a fertile volcanic isthmus nestled between the Pacific Ocean & the Tasman Sea with 2 main natural harbours, the Waitemata and Manukau Harbours.

In and around Auckland, the city is built on about 55 volcanic cones, many of which still exist today and can be explored accordingly. Others have been altered, in some instances significantly, since humans started making this strategically vital place in New Zealand their home about 800 years ago.

The Private Auckland Volcanoes Luxury Tour provides a highlight of Auckland city based on visits to both iconic and also lesser-known volcanic cones of great natural and historical significance, providing an opportunity to learn about how they shaped the history of the city. This tour can also incorporate a visit to the Auckland Museum where a special volcanic display is housed (museum entrance fee not included). To complement the tour itself, this could be of interest to our guests to see the displays which further enhance what you learn during the tour.

Learning about what Auckland is built on is both interesting, exciting and also a little disconcerting when you realise that according to vulcanologists, it's not a matter of if, but rather when, the next volcanic eruption will occur. Be dropped off back at your accommodation with a better understanding of why Auckland really is a unique city!
